

# Workgroup-class professional scanning fi-7160 Document Scanner

Organizations of all types and sizes choose the fi-7160 for its speed, reliability, and accuracy. Small enough to fit on any desk, yet powerful enough to sail through routine billing, data entry, and other administrative tasks. It's the class-leading standard for small teams and workgroups.

## A capable workhorse that keeps up with your business

- Powers through your documents at up to 120 pages (duplex mode) or 60 pages (simplex mode) per minute
- Large-capacity 80-page Automatic Document Feeder
- Supports documents up to 220" long<sup>1</sup> and embossed plastic cards

## Give your teams the convenience of desktop scanning

The fi-7160 offers robust scanning right on your desk, with smart features to make it painless.

- Scan documents of mixed paper sizes and weights all at once - no need to pre-sort
- Intelligent MultiFeed Function allows easy manual bypass for sticky notes, taped receipts, and labels that can slow down batch scanning
- Ultrasonic Double Feed Detection identifies sheets stuck together so you don't miss an image
- Forgot to remove a staple? Intelligent Sonic Paper Protection "listens" to paper flowing through the machine and stops if a misfeed occurs, reducing damage to your documents
- Skew Reduction significantly improves feeding performance and ensures that your whole document gets accurately captured from edge to edge
- Super-fast USB 3.0 interface

## Centralized fleet management

Includes Scanner Central Admin Agent to remotely manage your entire fi Series fleet. Effectively allocate your resources based on scan volume, consumables wear, and more.

## Clean up and optimize scans without changing settings in advance

PaperStream IP (PSIP) is a TWAIN/ISIS®-compliant driver with smart features including:

- Assisted Scanning lets you choose the best image cleanup through visual selection
- Advanced Image Cleanup corrects the toughest documents, including colored and decorated backgrounds, to improve OCR and reduce rescans
- Auto Color Detection identifies the best color mode for the document
- Blank Page Detection removes blank pages automatically
- Front and Back Merge places two sides of a page into one convenient image

## PaperStream Capture makes scanning fast and easy

Eliminate the learning curve. PaperStream Capture's user-friendly interface allows easy operation from start to finish. Changing scan settings is simple. Indexing and sorting features include barcode, patch code, and blank page separation – making batch scanning a breeze for operators.

## Make it even better with PaperStream Capture Pro

Optional PaperStream Capture Pro software offers an improved feature set with superior front-end capture, image processing, and options for enhanced data extraction and indexing for release. PaperStream Capture Pro software sold separately.

<sup>1</sup> Can scan documents longer than A4 sheets. Documents longer than 34" require using lower resolution (200 DPI or less) <sup>2</sup> Can scan up to 3 flat plastic cards or one embossed card at a time <sup>3</sup> Actual scanning speeds are affected by data transmission and software processing times <sup>4</sup> Using JPEG compression <sup>5</sup> Using TIFF CITT Group 4 compression <sup>6</sup> Maximum capacity varies depending upon paper thickness <sup>7</sup> Selectable maximum density may vary depending on length of document <sup>8</sup> When scanning at high resolutions (600 dpi or higher), some limitations to document size may apply depending on system environment <sup>9</sup> Dimensions measured with machine closed to minimum positions. During operation, machine depth is increased by the ADF chute and output tray. Minimum depth during operation is about 13.0" (330.2 mm) with ADF attached and output tray open but not extended, and can extend up to 27.56" (700 mm) when ADF and output trays are open and fully extended to their maximum positions. <sup>10</sup> Can be downloaded following instructions on Setup DVD-ROM <sup>11</sup> PFI Limited, a Fujitsu company, has determined that this product meets the ENERGY STAR<sup>®</sup> guidelines for energy efficiency and RoHS requirements (2005/95/EC) <sup>12</sup> Functions equivalent to those offered by PaperStream IP may not be available with the Image Scanner Driver for macOS/Linux and WIA Driver <sup>13</sup> Refer to the fi Series Support Site for driver/software downloads and full lineup of all supported operating systems versions.
